10.04.2017.
 14. CE/NCES/SE/Solar/EE/WPP/AEE2/F.AMR meter/D.926/17,
10.04.2017.

In continuation to the above reference the following instruction is issued to speed up the AMR project.2.

1. As per the reference cited (13 & 14) all the SE's were instructed to issue 15 days notice to all the WEGs to give their concurrence for making payment of meter cost, testing charges towards replacement of non-DLMS meter by DLMS ABT meter to TANGEDCO or to replace the meter by themselves by the generators before 23.04.2017.
2. Now, since the notice period has been over, the Nos. of consent for replacement either by TANGEDCO or by themselves may be ascertained and the requirement of ABT DLMS meter for each circle, shall be arrived and reported to CE/NCES before 30.04.2017.
3. Further IWPA has requested to collect the NABL testing charges also from the willing member for ease of work. Hence the metering cost (as per PO), MRT testing charges and the NABL testing charges (as per the consent of the generator) may be collected from the generators who has given consent for changing their meter by TANGEDCO and intimated to the concerned SE/NCES.
4. The SE/NCES/Udumalpet and Tirunelveli are the nodal officers for receiving the request letter from the generators, arranging for drawal of meters from the stores, sending the meter for NABL testing as the case may be, releasing the old meter after down loading the FR, refixing and testing of the new ABT DLMS meter, taking of initial reading and resealing of the new meter.
5. After new meter has been fixed the meter details, FR, IR details, released and fixed seal details should be communicated to the concerned SE's EDC.
6. Similarly for the request to change the meter by the generator themself the SE's/NCES/Tirunelveli and Udumalpet are the nodal officers. The SE's/ Distribution Circles should co-ordinate with SE/NCES and the MRT Wings of the Distribution Circles may be deputed on need basis for completing the project before 01.06.2017.

.....3.

7. The changing of old TOD meter into ABT meter may be expedited for the cases for which the estimate charges have been collected / adjusted in the bill by the concerned SE's/Distribution Circles.
8. The Generators who has not paid the estimate charges so far may be given another notice to pay the estimate charges or change the meter themselves before 01.06.2017 stating the fact that the manual reading of their WEG will not be taken by TANGEDCO, after 01.06.2017.
9. The weekly progress of the changing of meter should be collected by the concerned nodal officers, and sent to CE/NCES.

CHIEF ENGINEER/NCES
for DIRECTOR/GENERATION &
for DIRECTOR/DISTRIBUTION
