CIRCULAR

Dear Members

Subject: Retrofitting of Emission Control Device for DG Sets

We come to know from our members that they have received a letter from TNPCB regarding the Retrofitting of Emission Control Devices to Diesel Gensets. In this connection, we have sent a representation to the Chair Person TNPCB on 05-10-2024. However, we have not received any reply from them. Hence, we request all the members who received the Notice from DEE TNPCB to provide a reply as per the model letter enclosed by attaching the Representation of TECA. Unless courts are opened, nothing can be done. Let the individual Representations filed by members in bulk take care of the gap.

With Warm Regards

N. Pradeep
President
